

# BRICKHILLS INCLUSIVE PLAY AREA

On Friday 22nd September 2023, Mayor Rob Simonis cut the red ribbon to officially open the inclusive extension to Brickhills Playpark. Joined by students from Samuel Pepys School to experience the park first hand, St Neots Town Council are delighted to give the people of St Neots this inclusive play equipment allowing everyone to enjoy the art of play.

Using their imagination, the students sailed the seven seas onboard the mighty pirate ship whilst others leap frogged onto the trampoline and spun around on the never-ending roundabout.

One student said, "this park is next level, you all did an amazing job. This is the best park I've even seen in my whole 12 years of existence"

## A place for all to play

We have been inundated with kind words and gratitude from members of the community who have already had the chance to enjoy the playpark, including a video from one little resident thanking the council. Her grandparents followed up with, "[we] just wanted to add another thank you. Hattie has cerebral palsy and to see her able to enjoy the park with her brother and sister was simply joyous."

A new Play Park Strategy is being developed to guide future investment and enhancements of all of St Neots Town Council's play areas which will see more children being able to enjoy their local parks.

If you haven't already, head down to Brickhills Playpark and let us know what you think!
